Printed and on-screen colours are a guide. Please confirm your choice against an actual sample.

Specification and care

Description

Total Thickness	5.0mm +/- 0.5
Size of Studs	High 1.9mm ; Diameter 23.6mm
Size of tile	605mm x 605mm
Hardness	90^0A +/- 5^0
Weight	2.5kg +/- 0.5
Back	Roughened for adhesive fastening
Colour Available	Black
Packing	15 Pieces/Carton Box
1 Square meter	4 pieces

General Characteristics

Wear-resistance of Rubber Floor Tiles means a long useful lifetime meaning less frequent need of disposal. It is resistant to chemicals: the flooring suffers no damage from short-time exposure to solvents, diluted acids and alkalis. Moreover, Rubber Floor Tiles are resistant to cigarette burns that prevent surface damage. Rubber Floor Tiles are made for foot fall sound absorption and result to less noise even heavy traffic. It is permanently resilient with lasting high walking comfort. Rubber Floor Tiles are dimensionally stable which ensure that the tiles do not contain any plasticizers, therefore no shrinkage. No coating required for the floor tiles meaning substantially reduced care and maintenance costs and less pollutants in the waste water.

Exemplary Environmental Friendly

From the raw materials to the production process, from installation to disposal, our rubber floor tiles are environmental-friendly, and thus offer more than just their superlative quality. Besides, our Rubber Floor Tiles do not contain Halogens, Plasticizers, Formaldehyde, Asbestos, Cadmium, CFCs.
